

Cedar Tree Pods

CONSIDERING INVESTING IN GLAMPING STRUCTURES?

# Beautifully Designed Western Red Cedar Glamping Pods

North Wales Glamping Pod Manufacturer

## ABOUT US

We make our BEAUTIFUL CEDAR GLAMPING PODS at an old dairy farm tucked away in the quiet countryside near Bangor On Dee, Wrexham.

We have over five years' experience designing, building, and supplying timber pods. What started as a hobby for a father and son, both master craftsmen with a passion for making timber structures, is now a family-owned operation with wife, daughter and brother working within the business. CEDAR TREE PODS is cutting edge in the glamping manufacturing industry, and thanks to an extra cowshed we are able to meet the demand for glamping pods across the UK.

Our Luxury Pods are designed with the leisure industry in mind. Expertly crafted, made to last and built with the highest standard materials, these luxurious timber pods offer endless interior design possibilities and provide a clean, contemporary version of camping – including feature French doors to let nature in (when you want it!)

We use lightweight and stable **Western Red Cedar** – it's far less likely to crack and warp than treated timber. **Aesthetically pleasing, durable, and strong**, our choice of timber contains oils that act as preservatives to **prevent mould and deter insects**. This same oil gives the Western Red Cedar its warm, welcoming scent.

### Cedar is a renewable resource

When it comes to environmental performance, natural wood is superior to synthetic products in every way. Unlike brick, cement, and composites, Western Red Cedar is renewable and sustainable.

It is also a non-toxic alternative to chemically treated wood, often referred to as pressure-treated, which are soaked in chemical preservatives and require warning labels for anyone handling them.

The Western Red Cedar we sell is grown in managed forests subject to controlled harvests and reforestation programs.

**We offer  
Beautiful Glamping Pods &  
Bespoke Luxury Builds  
for the leisure industry.**

The CEDAR TREE PODS come in three configurations and sizes:

**XL GRANDE** - A double bed with an ensuite bathroom

**XL FAMILY** - Larger sized, with a double bed, bunk beds and ensuite bathrooms

**BESPOKE** - Customised pods  
All come in 3 different lengths.

We also design and build **bespoke structures** to fit your business, including:

- CABINS
- ROUNDHOUSES
- SHEPHERDS HUTS
- LODGES

Cedar Pod interiors offer limitless possibilities for design creativity. Their open plan interiors are up to 8 metres in length giving creative freedom for colour schemes and furniture combinations. Each Pod is crafted to deliver a luxurious stay, with a full kitchen, shower room, dining and lounge area, and double bed and a room for bunkbeds if needed.

**Sustainable, beautiful and built to last.**

**WANT SOMETHING UNIQUE?**

## **STUNNING CEDAR PODS MADE FOR BEAUTIFUL PLACES**

**An exclusive collection of cedar pods, cabins and roundhouses with all the luxuries of hotel living, available to order now.**

Our range of glamping pods and lodges are located all over the UK. You will find them in some of Britain's best loved holiday destinations, amidst breathtaking landscapes and parklands. We work with our customers to design interesting and unique builds and push the boundaries of what luxury glamping looks like.

Our Cedar Tree Pods designs can be tailored to your requirements and made to fit the needs of your business. We work closely with you to create the unique space you want.

## ONE OF A KIND EXPERIENCE XL GRANDE ENSUITE

### PRODUCT INFORMATION

Sleeps up to 6 depending on size

#### Dimensions

Width: 3.3m

Length: 6m / 7m / 8m

Height: 3m

#### Description

The first of our builds started with our XL Grande created for the luxury glamping industry. Spacious and stylish, this timber framed pod can sleep up to four at 6m and 7m long and up to 6 at 8m long. Build quality is everything for us; we use the best materials and the highest level of craftsmanship for this stylish open plan cedar pod. We have built over one hundred pods to the same level of unrivalled quality and attention to detail in each.

With an open plan configuration, the XL Grande ensuite pods are perfect for setting up your luxury glamping site. Ensuite bathroom with full shower enclosure, kitchenette with integrated fridge and micro combi oven plus double bed, sofa bed and dining area give you everything you need to offer your customers a beautiful, cosy holiday.
